

Network and Information Security

Subject Code: R23CP3404

Semester 6 · 4 Credits · Elective · CWIT R23

2 Curated YouTube Lectures

Comprehensive Study Notes with Curated Lectures, Study Guide & Practice Questions

Lernio AI · Learning OS 2.0

Coverage Focus

Security goals, attacks, cryptography, authentication, network defence, firewalls and secure communication.

Curated YouTube Lecture Resources

These playlists have been curated to match your CWIT R23 syllabus. Start with the Primary playlist, then use Alternate playlists for different explanations.

Primary Lecture 1: Network Security and Cryptography

Channel: Gate Smashers · Language: hi-Hinglish

URL: https://www.youtube.com/playlist?list=PLxCzCOWd7aiFjkQbGj_yHeTEVPn422_z5

Concise, exam-friendly cryptography and network-security explanations.

Alternate Lecture 1: Cryptography and Network Security

Channel: YouTube course playlist · Language: en

URL: https://www.youtube.com/playlist?list=PLiineyru3vMCz3AExYPOFmR_DrZpIoOOE

Adds attacks, goals, cryptographic components and security mechanisms.

Study Guide

Network and Information Security (R23CP3404) is a elective subject worth 4 credits. Coverage focus: Security goals, attacks, cryptography, authentication, network defence, firewalls and secure communication.

Key Topics to Study

- Security goals
- attacks
- cryptography
- authentication
- network defence
- firewalls

How to Study This Subject

- Watch the primary YouTube lecture playlist first
- Take notes while watching — write key terms and formulas
- If a topic is unclear, watch the alternate playlist
- For programming subjects, type out every code example yourself
- Use Ask LEO to clarify any doubts
- Practise with quiz questions after each topic

Exam Tips

- Focus on the coverage focus topics — these align with your CWIT R23 syllabus
- Review the primary lecture playlist before exams
- Practise numerical problems and code examples
- Time yourself while practising
