

Software Engineering

Subject Code: R23CP2409

Semester 5 · 5 Credits · Theory · CWIT R23

2 Curated YouTube Lectures

Comprehensive Study Notes with Curated Lectures, Study Guide & Practice Questions

Lernio AI · Learning OS 2.0

Coverage Focus

SDLC models, requirements, analysis/design models, testing, estimation, risk, quality and maintenance.

Curated YouTube Lecture Resources

These playlists have been curated to match your CWIT R23 syllabus. Start with the Primary playlist, then use Alternate playlists for different explanations.

Primary Lecture 1: Software Engineering - Complete Playlist

Channel: Gate Smashers · Language: hi-Hinglish

URL: <https://www.youtube.com/playlist?list=PLxCzCOWd7aiEed7SKZBnC6ypFDWYLRvB2>

Complete semester-oriented coverage with models, diagrams and exam-relevant explanations.

Alternate Lecture 1: Software Engineering and Project Management

Channel: YouTube playlist · Language: hi-Hinglish

URL: https://www.youtube.com/playlist?list=PLYwpaL_SFmcCB7zUM0YSDR-1mM4KoilyLM

Adds project planning, estimation and management topics around the software lifecycle.

Study Guide

Software Engineering (R23CP2409) is a theory subject worth 5 credits. Coverage focus: SDLC models, requirements, analysis/design models, testing, estimation, risk, quality and maintenance.

Key Topics to Study

- SDLC models
- requirements
- analysis/design models
- testing
- estimation
- risk

How to Study This Subject

- Watch the primary YouTube lecture playlist first
- Take notes while watching — write key terms and formulas
- If a topic is unclear, watch the alternate playlist
- For programming subjects, type out every code example yourself
- Use Ask LEO to clarify any doubts
- Practise with quiz questions after each topic

Exam Tips

- Focus on the coverage focus topics — these align with your CWIT R23 syllabus
- Review the primary lecture playlist before exams
- Practise numerical problems and code examples
- Time yourself while practising
