

Machine Learning

Subject Code: R23CP2411

Semester 6 · 5 Credits · Theory · CWIT R23

2 Curated YouTube Lectures

Comprehensive Study Notes with Curated Lectures, Study Guide & Practice Questions

Lernio AI · Learning OS 2.0

Coverage Focus

Data preparation, supervised/unsupervised learning, regression, classification, clustering, evaluation and Python implementation.

Curated YouTube Lecture Resources

These playlists have been curated to match your CWIT R23 syllabus. Start with the Primary playlist, then use Alternate playlists for different explanations.

Primary Lecture 1: Machine Learning

Channel: Gate Smashers · Language: hi-Hinglish

URL: <https://www.youtube.com/playlist?list=PLnxbeknIQabSODsSrViSCRYdNzII3S7G>

Compact semester-style sequence covering core ML algorithms and concepts.

Alternate Lecture 1: Complete Machine Learning Course

Channel: Siddhardhan · Language: en

URL: <https://www.youtube.com/watch?v=LcWFedjaR4Q>

Long-form practical Python course with implementation and projects.

Study Guide

Machine Learning (R23CP2411) is a theory subject worth 5 credits. Coverage focus: Data preparation, supervised/unsupervised learning, regression, classification, clustering, evaluation and Python implementation.

Key Topics to Study

- Data preparation
- supervised/unsupervised learning
- regression
- classification
- clustering
- evaluation

How to Study This Subject

- Watch the primary YouTube lecture playlist first
- Take notes while watching — write key terms and formulas
- If a topic is unclear, watch the alternate playlist
- For programming subjects, type out every code example yourself
- Use Ask LEO to clarify any doubts
- Practise with quiz questions after each topic

Exam Tips

- Focus on the coverage focus topics — these align with your CWIT R23 syllabus
- Review the primary lecture playlist before exams
- Practise numerical problems and code examples
- Time yourself while practising
