

Digital Techniques and Microcontroller

Subject Code: R23CI2603

Semester 3 · 5 Credits · Theory · CWIT R23

2 Curated YouTube Lectures

Comprehensive Study Notes with Curated Lectures, Study Guide & Practice Questions

Lernio AI · Learning OS 2.0

Coverage Focus

Number systems, Boolean algebra, combinational/sequential circuits, registers, counters and microcontroller fundamentals.

Curated YouTube Lecture Resources

These playlists have been curated to match your CWIT R23 syllabus. Start with the Primary playlist, then use Alternate playlists for different explanations.

Primary Lecture 1: Digital Electronics

Channel: Neso Academy · Language: en

URL: <https://www.youtube.com/playlist?list=PLBlnK6fEyqRjYKHIzipvvuuZMTIJKsvQK>

Clear foundation for gates, Boolean algebra, combinational and sequential logic.

Alternate Lecture 1: Microprocessors and Microcontrollers

Channel: Neso Academy · Language: en

URL: https://www.youtube.com/playlist?list=PLBlnK6fEyqRgyFCCgqdcBowmSp_BTKs4F

Use the relevant microcontroller architecture and programming lectures after digital fundamentals.

Study Guide

Digital Techniques and Microcontroller (R23CI2603) is a theory subject worth 5 credits. Coverage focus: Number systems, Boolean algebra, combinational/sequential circuits, registers, counters and microcontroller fundamentals.

Key Topics to Study

- Number systems
- Boolean algebra
- combinational/sequential circuits
- registers
- counters
- microcontroller fundamentals.

How to Study This Subject

- Watch the primary YouTube lecture playlist first
- Take notes while watching — write key terms and formulas
- If a topic is unclear, watch the alternate playlist
- For programming subjects, type out every code example yourself
- Use Ask LEO to clarify any doubts
- Practise with quiz questions after each topic

Exam Tips

- Focus on the coverage focus topics — these align with your CWIT R23 syllabus
- Review the primary lecture playlist before exams
- Practise numerical problems and code examples
- Time yourself while practising
