Study Guide

Advanced Java Programming (R23CP1405) is a theory subject worth 5 credits. Coverage focus: JDBC, Swing/AWT, networking, servlets, JSP and building database-backed Java applications.

Key Topics to Study

- JDBC
- Swing/AWT
- networking
- servlets
- building database-backed Java applications.

How to Study This Subject

- Watch the primary YouTube lecture playlist first
- Take notes while watching — write key terms and formulas
- If a topic is unclear, watch the alternate playlist
- For programming subjects, type out every code example yourself
- Use Ask LEO to clarify any doubts
- Practise with quiz questions after each topic

Exam Tips

- Focus on the coverage focus topics — these align with your CWIT R23 syllabus
- Review the primary lecture playlist before exams
- Practise numerical problems and code examples
- Time yourself while practising
