A combined backup resource for quick revision across both parts.

Study Guide

Basic Science (R23CP2701) is a theory subject worth 4 credits. Coverage focus: Foundational physics, chemistry, numerical problems, concepts and laboratory-related understanding.

Key Topics to Study

- Foundational physics
- chemistry
- numerical problems
- concepts
- laboratory-related understanding.

How to Study This Subject

- Watch the primary YouTube lecture playlist first
- Take notes while watching — write key terms and formulas
- If a topic is unclear, watch the alternate playlist
- For programming subjects, type out every code example yourself
- Use Ask LEO to clarify any doubts
- Practise with quiz questions after each topic

Exam Tips

- Focus on the coverage focus topics — these align with your CWIT R23 syllabus
- Review the primary lecture playlist before exams
- Practise numerical problems and code examples
- Time yourself while practising
