Study Guide

Engineering Graphics (R23CP2201) is a theory subject worth 4 credits. Coverage focus: Drawing conventions, projections, dimensioning, orthographic views and problem-solving demonstrations.

Key Topics to Study

- Drawing conventions
- projections
- dimensioning
- orthographic views
- problem-solving demonstrations.

How to Study This Subject

- Watch the primary YouTube lecture playlist first
- Take notes while watching — write key terms and formulas
- If a topic is unclear, watch the alternate playlist
- For programming subjects, type out every code example yourself
- Use Ask LEO to clarify any doubts
- Practise with quiz questions after each topic

Exam Tips

- Focus on the coverage focus topics — these align with your CWIT R23 syllabus
- Review the primary lecture playlist before exams
- Practise numerical problems and code examples
- Time yourself while practising
