Study Guide

Emerging Trends in Computer Engineering (R23CP2410) is a theory subject worth 4 credits. Coverage focus: AI/ML, cloud, IoT, blockchain, edge computing, modern software platforms and current computing trends.

Key Topics to Study

- AI/ML
- cloud
- blockchain
- edge computing
- modern software platforms
- current computing trends.

How to Study This Subject

- Watch the primary YouTube lecture playlist first
- Take notes while watching — write key terms and formulas
- If a topic is unclear, watch the alternate playlist
- For programming subjects, type out every code example yourself
- Use Ask LEO to clarify any doubts
- Practise with quiz questions after each topic

Exam Tips

- Focus on the coverage focus topics — these align with your CWIT R23 syllabus
- Review the primary lecture playlist before exams
- Practise numerical problems and code examples
- Time yourself while practising
