

Recent Trends in Computer Networks

Subject Code: R23CP3401

Semester 5 · 4 Credits · Elective · CWIT R23

2 Curated YouTube Lectures

Comprehensive Study Notes with Curated Lectures, Study Guide & Practice Questions

Lernio AI · Learning OS 2.0

Coverage Focus

Network virtualization, SDN, data-center networking, IoT networking and emerging network technologies.

Curated YouTube Lecture Resources

These playlists have been curated to match your CWIT R23 syllabus. Start with the Primary playlist, then use Alternate playlists for different explanations.

Primary Lecture 1: Software Defined Networking

Channel: Nick Feamster lecture series · Language: en

URL: <https://www.youtube.com/playlist?list=PLpherdrLyny8YN4M24iRJBMCXkLcGbmhY>

Detailed academic course on SDN, control/data planes and OpenFlow.

Alternate Lecture 1: Recent Advances in Networking: SDN, Big Data and IoT

Channel: Academic lecture series · Language: en

URL: <https://www.youtube.com/playlist?list=PLjGG94etKypLHyBN8mOgwJLHD2FFIMGq5>

Broader treatment of data-center networking, virtualization, SDN and IoT trends.

Study Guide

Recent Trends in Computer Networks (R23CP3401) is a elective subject worth 4 credits. Coverage focus: Network virtualization, SDN, data-center networking, IoT networking and emerging network technologies.

Key Topics to Study

- Network virtualization
- data-center networking
- IoT networking
- emerging network technologies.

How to Study This Subject

- Watch the primary YouTube lecture playlist first
- Take notes while watching — write key terms and formulas
- If a topic is unclear, watch the alternate playlist
- For programming subjects, type out every code example yourself
- Use Ask LEO to clarify any doubts
- Practise with quiz questions after each topic

Exam Tips

- Focus on the coverage focus topics — these align with your CWIT R23 syllabus
- Review the primary lecture playlist before exams
- Practise numerical problems and code examples
- Time yourself while practising
