Study Guide

Fundamentals of Data Science (R23CP3403) is a elective subject worth 4 credits. Coverage focus: Data-science workflow, Python tools, data cleaning, visualization, statistics and introductory machine learning.

Key Topics to Study

- Data-science workflow
- Python tools
- data cleaning
- visualization
- statistics
- introductory machine learning.

How to Study This Subject

- Watch the primary YouTube lecture playlist first
- Take notes while watching — write key terms and formulas
- If a topic is unclear, watch the alternate playlist
- For programming subjects, type out every code example yourself
- Use Ask LEO to clarify any doubts
- Practise with quiz questions after each topic

Exam Tips

- Focus on the coverage focus topics — these align with your CWIT R23 syllabus
- Review the primary lecture playlist before exams
- Practise numerical problems and code examples
- Time yourself while practising
