

Cloud Computing

Subject Code: R23CP3405

Semester 6 · 4 Credits · Elective · CWIT R23

2 Curated YouTube Lectures

Comprehensive Study Notes with Curated Lectures, Study Guide & Practice Questions

Lernio AI · Learning OS 2.0

Coverage Focus

Cloud characteristics, service/deployment models, virtualization, architecture, storage, security and common platforms.

Curated YouTube Lecture Resources

These playlists have been curated to match your CWIT R23 syllabus. Start with the Primary playlist, then use Alternate playlists for different explanations.

Primary Lecture 1: Cloud Computing - Gate Smashers Course

Channel: Gate Smashers · Language: hi-Hinglish

URL: <https://www.youtube.com/watch?v=aaL61HouKLs>

Start from the linked cloud lecture and continue through the numbered cloud-computing series.

Alternate Lecture 1: Cloud Computing Full Course

Channel: Simplilearn · Language: en

URL: <https://www.youtube.com/watch?v=q3m1AB9ECXo>

Broad end-to-end cloud foundation and current platform concepts.

Study Guide

Cloud Computing (R23CP3405) is a elective subject worth 4 credits. Coverage focus: Cloud characteristics, service/deployment models, virtualization, architecture, storage, security and common platforms.

Key Topics to Study

- Cloud characteristics
- service/deployment models
- virtualization
- architecture
- storage
- security

How to Study This Subject

- Watch the primary YouTube lecture playlist first
- Take notes while watching — write key terms and formulas
- If a topic is unclear, watch the alternate playlist
- For programming subjects, type out every code example yourself
- Use Ask LEO to clarify any doubts
- Practise with quiz questions after each topic

Exam Tips

- Focus on the coverage focus topics — these align with your CWIT R23 syllabus
- Review the primary lecture playlist before exams
- Practise numerical problems and code examples
- Time yourself while practising
