Study Guide

AI Tools and Techniques (R23CP6406) is a theory subject worth 4 credits. Coverage focus: AI concepts, practical tools, prompt-based workflows, data/ML utilities, responsible use and small AI applications.

Key Topics to Study

- AI concepts
- practical tools
- prompt-based workflows
- data/ML utilities
- responsible use
- small AI applications.

How to Study This Subject

- Watch the primary YouTube lecture playlist first
- Take notes while watching — write key terms and formulas
- If a topic is unclear, watch the alternate playlist
- For programming subjects, type out every code example yourself
- Use Ask LEO to clarify any doubts
- Practise with quiz questions after each topic

Exam Tips

- Focus on the coverage focus topics — these align with your CWIT R23 syllabus
- Review the primary lecture playlist before exams
- Practise numerical problems and code examples
- Time yourself while practising
